Career Objective

Front-End Developer passionate about creating simple and user-friendly interfaces that enhance user experience and make websites easy to navigate. Seeking an opportunity in a professional company (on-site or remote) to grow technical skills in React and Next.js, work with an experienced team, and contribute to real products that support company success. Interested in expanding backend knowledge alongside frontend development.

Work Experience / Internships

- **Trendify**: A comprehensive and responsive e-commerce platform for discovering and purchasing the latest fashion trends. Developed using **Next.js** (App Router) and **TypeScript**, leveraging **Server Actions** for dynamic operations (like cart and wishlist). Features a secure authentication system with **Next-Auth** and utilizes the **React Context API** for state management, all while consuming data from an external **API**.
- **Recipe App** : An interactive and responsive platform for discovering and managing cooking recipes. Developed using **React** and **React Router**, and consuming data from an external **Recipe API** for dynamic content loading.
- **Start Framework Template:** A highly responsive and modern front-end template/framework utilizing **React** for building fast and interactive single-page applications (SPA) or websites.
- **Personal Portfolio Template** : A comprehensive, responsive one-page website template featuring sections for services, work gallery, and contact information. (Technologies: **HTML5, CSS3, Bootstrap**).
- **DevFolio Template:** A responsive and professional single-page developer portfolio template designed for showcasing projects and skills. (Technologies: **HTML5, CSS3,Bootstrap**).

Education

- 2022 – 2026   Bachelor's of computer and information science, Faculty of computer and information science, Ain Shams University. Currently a Level 4 Student.
